

SECURITAY LIMITED

ENVIRONMENTAL PROTECTION POLICY

SECURITAY is fully committed to achieving the highest levels of performance in protecting the environment and minimising the impact of our activities on the natural environment by a pro active approach through an Environment Awareness Programme including:

FINDING COST EFFECTIVE WAYS TO MINIMISE THE IMPACT OF THE ENVIRONMENT

- Continuously improving our performance in early identification, evaluation and control of environmental impacts arising from our Client's activities, in the work place and "on site".
- Ensure protection of the environment receives the same priority as other major considerations and is an integral part of the way we plan, execute and evaluate our activities.
- Minimise overall ecological impact through suggestions to Client on pollution control.
- Support research by the client to further improve environmental protection in their industry.

MINIMISE EMISSIONS, DISCHARGES AND WASTE

- Avoid generating waste at the source where practicable, rather than relying on end-of-pipe and treatment solutions.
- Regularly assess and suggest to the client methods for handling and disposal of waste materials.
- Provide responsible care for wastes generated, handled or disposed, and recycle waste materials where practicable.
- Advise client and establish controls and measures to reduce risks and minimise adverse effects in the event of an emergency.

CONSERVE ENERGY

- Assist in monitoring and reviewing annual energy consumption
- Assist in reaching targets for reducing energy consumption and elimination unnecessary energy usage.
- Assist in implementation of improved energy-efficient practise.

INVOLVE OUR GUARDFORCE

- Provide appropriate training for our guardforce in understanding, controlling and solving potential environmental problems.
- Clarify roles and responsibilities and in conjunction with the client, link individual performance and contributions in implementing this policy with established reward and recognition systems.

COMPLY WITH LEGISLATION AND STANDARDS

- Work with government and industry in development and implementing protection legislation and standards.
- Comply with **SECURITAY's** and Government standards and requirements.
- Measure, monitor, assess and continuously improve the performance of our clients and ourselves. Regularly measure and audit our performance and keep our guardforce, clients and shareholders informed of results through summary reports and National Health and Safety Committee Reports.

REMEMBER THE THREE 'R'S

- **REDUCE**
- **RECYCLE**
- **RE-USE**
